Office of Public Art  
Fabricators and Consultants List  
March 2017

This is a partial list of fabricators and consultants in the Pittsburgh region who have expressed interest in working with artists. This is not a comprehensive list, and there are many other local and regional fabricators and consultants not listed here who may also be interested and available to work with artists. Inclusion on this list does not indicate the Office of Public Art’s endorsement of their services.

If you are a fabricator or consultant who would like to be considered for inclusion on this list, please complete the Fabricator and Consultant Survey on-line at: http://tinyurl.com/OPA-fabricators. If you are an artist and would like to suggest fabricators or consultants whom you have worked with, please submit their contact information here: http://tinyurl.com/OPA-recommend.
